

# MINEHEAD SCHOOL & STREET PASTORS

Helping, Listening, Caring

September 2016

## Say a Little Prayer for Us

When Street Pastors or School Pastors go out "on duty", there are always people praying for them and the people they meet. It is a powerful part of what we do.

Have you ever thought that this could be you? We know that there are those who have this on their heart but could not leave their home to join a group praying. So what about praying from your home?

We would keep you informed of what is going on and what particular needs there might be.

If you can help, please contact Audrey Williams (see contact details below)

## Good for Nothing!

Street and School Pastors are all volunteers so we do not require a lot of funding. But each time we have new volunteers they require training and a uniform.

Does your Church support Street and School Pastors?

Would you like to make a personal donation? We are a registered charity so we can apply Gift Aid to your donation.

Please contact Audrey Williams (details below)

## News from the Street

"The beautiful lady who said thank you!"

Email received recently:-

*"I would like to thank the two lovely ladies who was just outside Lloyds, Minehead last night. I was waiting for my taxi alone and had been sitting there for quite a while and it was comforting to have someone there who generally was just there to help and talk! They was so sweet and very helpful and always kept checking I was okay. Street Pastors is a fantastic idea and I would of loved to give them thanks personally but I never got their names."*

## School Report

You may remember that over 20 School and Street Pastors were commissioned in April. Pastors are around during the lunch break once or twice a week.

Already our work has expanded as we respond to the needs of the College. We have been at Sports Day and "Moving-Up Day" (when Middle School pupils spend a day in their new school).

We have also been asked to help with exam invigilation - especially for those with special needs that require a room on their own. And we'll be there when the exam results come out.

Now we have been asked to provide some one-to-one reading help. And soon, we will be on the street at the end of the school day.
